

Enabling Process Excellence.™

The iGrafX product suite is ideal for organizations engaged in:

- Enterprise Modeling and Analysis
- Business Process Management
- Enterprise Architecture
- Risk Management
- SOX Compliance
- Quality Management
- Six Sigma
- Lean
- ISO Certification
- IT Governance
- Business Continuity

iGrafX is an integrated suite of software and services for process excellence.

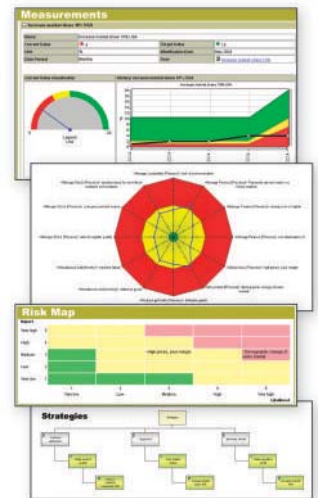

iGrafX® helps organizations reduce costs, waste and risk by allowing IT, business analysts and process initiative practitioners to understand and improve processes across functional boundaries.

The iGrafX suite of business process improvement software enables users to document, analyze, refine and communicate processes in the pursuit of corporate goals and objectives.

iGrafX® ENTERPRISE CENTRAL²⁰⁰⁹ & ENTERPRISE MODELER²⁰⁰⁹

Enterprise Strategy, Alignment and Control

iGrafX® Enterprise Central™ is an enterprise modeling solution that aligns company processes, resources, and systems with corporate goals and strategies. iGrafX Enterprise Central includes iGrafX® Process Central® and enables compliance management, risk management, enterprise architecture and quality improvement initiatives. Through data integration and visual workflows, organizations develop comprehensive organizational models with multidimensional views of business processes, supporting systems, technology components and resources.

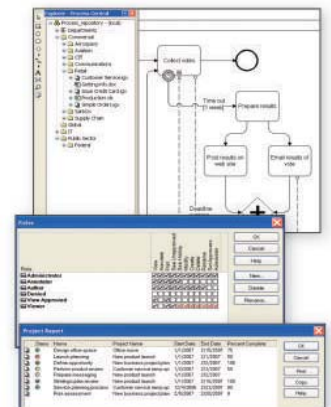

Create Enterprise Process Excellence

iGrafX® Enterprise Modeler™ is the companion client to iGrafX Enterprise Central. Designed for the user who needs the ability to create comprehensive frameworks and reference models, define strategies, risks and goals and create detailed reports, iGrafX Enterprise Modeler delivers the most comprehensive set of functionality for iGrafX users. iGrafX Enterprise Modeler includes all of the functionality in iGrafX Process for Six Sigma.

iGrafX® PROCESS CENTRAL²⁰⁰⁹

The Central Hub for all Process Improvement Initiatives

iGrafX Process Central is a server software solution that helps organizations be more productive and efficient in developing, documenting and communicating business process improvements. Through its central repository, iGrafX Process Central stores, manages and distributes all process initiative information, simplifies the development and management of complex models, and enables central documentation control and security. iGrafX Process Central is available separately or as a component of iGrafX Enterprise Central.

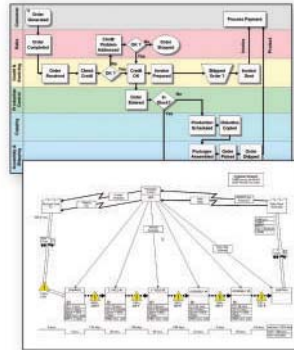

iGrafx®

Enabling Process Excellence.™

iGrafx® FLOWCHARTER²⁰⁰⁹

A Solid Foundation for Process Improvement

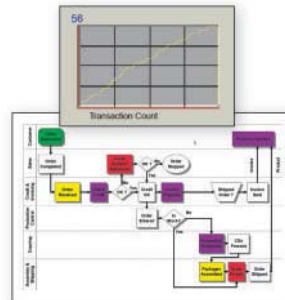

iGrafx® FlowCharter™ is the most full featured, easiest to use process analysis and modeling tool available to help organizations understand and improve business processes. A graphical representation of processes allows people to easily comprehend information, and quickly focus on the bottlenecks and issues in a process. Far more robust than generic charting products, iGrafx FlowCharter is the entry point in the iGrafx family of process excellence software solutions.

iGrafx® PROCESS²⁰⁰⁹

Simulate Your World and find Efficiencies

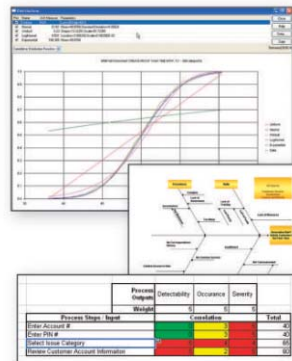

As a cornerstone of process improvement for more than a decade, iGrafx® Process™ has helped thousands of organizations document, simulate and improve business, operational, and IT processes, thereby increasing customer satisfaction and product quality while lowering costs. iGrafx Process provides all of the functionality in iGrafx FlowCharter plus discrete event simulation which allows the user to perform dynamic process analysis.

iGrafx® PROCESS²⁰⁰⁹ for six sigma

A Proven Standard for Six Sigma

Many organizations use customer satisfaction, shareholder value, and bottom line results to measure success. Six Sigma is a proven methodology for improving these metrics and iGrafx® Process™ for Six Sigma is a proven tool within the Six Sigma community. iGrafx Process for Six Sigma provides all of the functionality in iGrafx FlowCharter and iGrafx Process plus integration with JMP® and Minitab® to run Rapid Design of Experiments, log simulation results, as well as other features.
